

sendQuick® Connect

Be the First to Be Informed

Mobile phone has become an essential business and communication tool for everyone. Business transactions and contracts are closed with the mobile phones. As businesses are getting more distributed, there is a higher demand to access enterprise messaging systems anytime, anywhere to enhance business productivity.

sendQuick® Connect provides a low cost and easy-to-implement system to allow enterprise to offer messaging systems on the mobile phone. sendQuick® Connect has built-in connectors to Microsoft® Exchange and IBM® Lotus® Domino® to provide seamless integration to these systems and enable the services (email, appointment, meetings, reminders, to-do list and address directory) to be available easily. Using the standard SMS technology, these services will be available on any mobile phones, anytime, anywhere.

SYSTEM FEATURES

- » Easy to set-up (get it working in less than 10 minutes!)
- » Support standard connection to Microsoft® Active Directory (AD) or LDAP on Lotus® Domino®
- » Keyword Management for message routing to specific applications and processes
- » Highly scalable, supporting up to 32 modems and direct connection to mobile operators
- » Auto load handling and auto message distribution for efficient message receive and sending.
- » Unlimited end user license
- » 2-way SMS communication
- » Mass SMS via CSV and Tab delimited files upload
- » Minimal maintenance and administration
- » Auto-detect for modem functionality (auto detect SMSC)
- » Plug-and-play into your network
- » Fully customisable SMS commands (with direct integration to your back-end system, on any platforms)
- » Telco-independent (the GSM modem can support all GSM SIM cards)
- » 24 x 7 x 365 operations

EMAIL EVERYWHERE

When an email reaches your inbox, you will get an email alert (push email) with the From, Subject and Content to your mobile phone. You can choose to reply to the message, if required.

Each user has an email filter where only important emails are 'pushed' to you via SMS.

User can also originate and send email, using a predefined SMS format.

INSTANT CONFIRMATION

Now, you can Accept, Reject or Tentative a meeting or appointment by using SMS. Each request notice will be sent to your mobile phone, as a SMS message, instantly. With the convenience of instant reply confirmation, you can confirm your meeting or appointment immediately, improving productivity.

NEVER MISS AN APPOINTMENT OR TASK

With SMS reminder for all tasks, meetings and appointments, you have a personal concierge service on your mobile phone.

SEND SMS ANYTIME

sendQuick® Connect has a web interface for you to send SMS to your colleagues, customers, business partners and friends available in the Exchange/Domino® Global and Personal Directory at the convenience of the desktop computer. The messages can be sent in the office or any other location (with Internet access).

You can create additional address book entry as well as grouping of the recipients.

UNLIMITED CONTACTS

Do you realise that you cannot bring thousands of contacts on your mobile phone? Now you can. Send a SMS with the contact name and you will get the mobile number of the person, from your Exchange/Domino® Global and/or personal directory. Now, your office contact list will never leave you, as long as you have your mobile phone.

GET CALENDAR UPDATE

Ever wonder what your schedule is like next week? Send a SMS and the schedule for the day will be delivered to you, instantly. You can schedule your appointments, with piece of mind.
